starkventures.co 's Scope

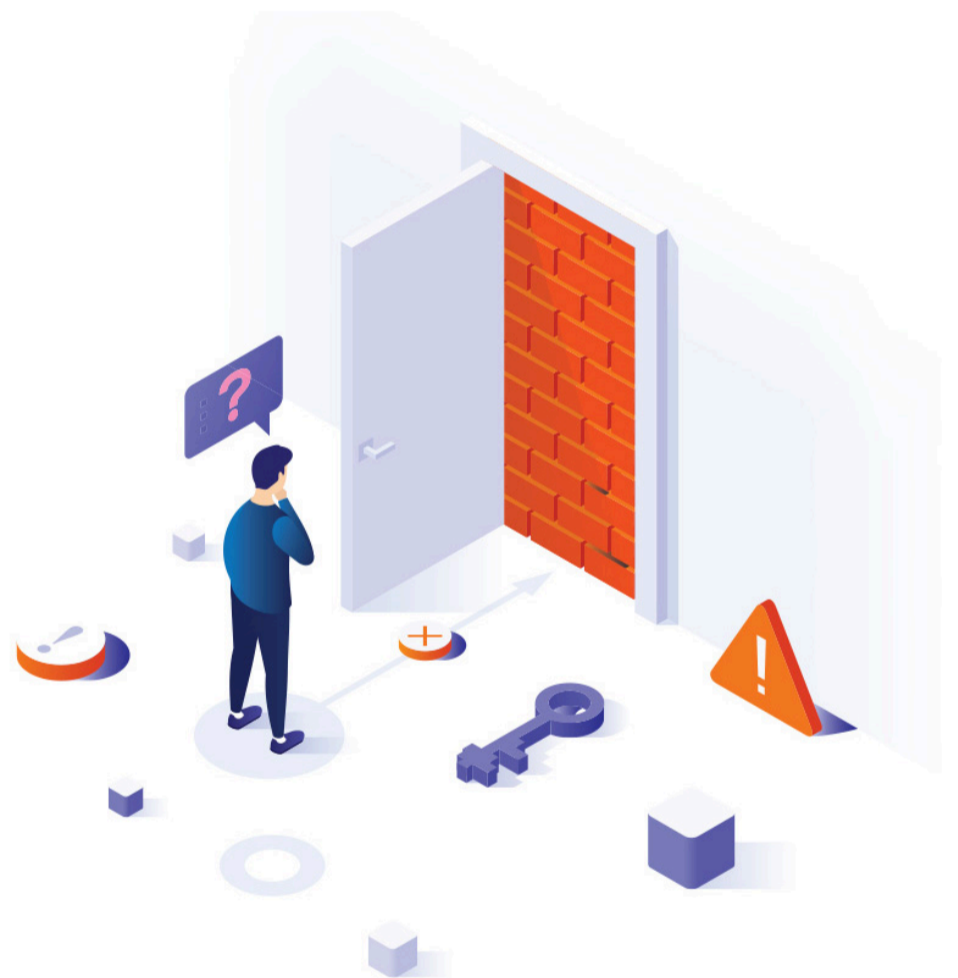

Problem statement

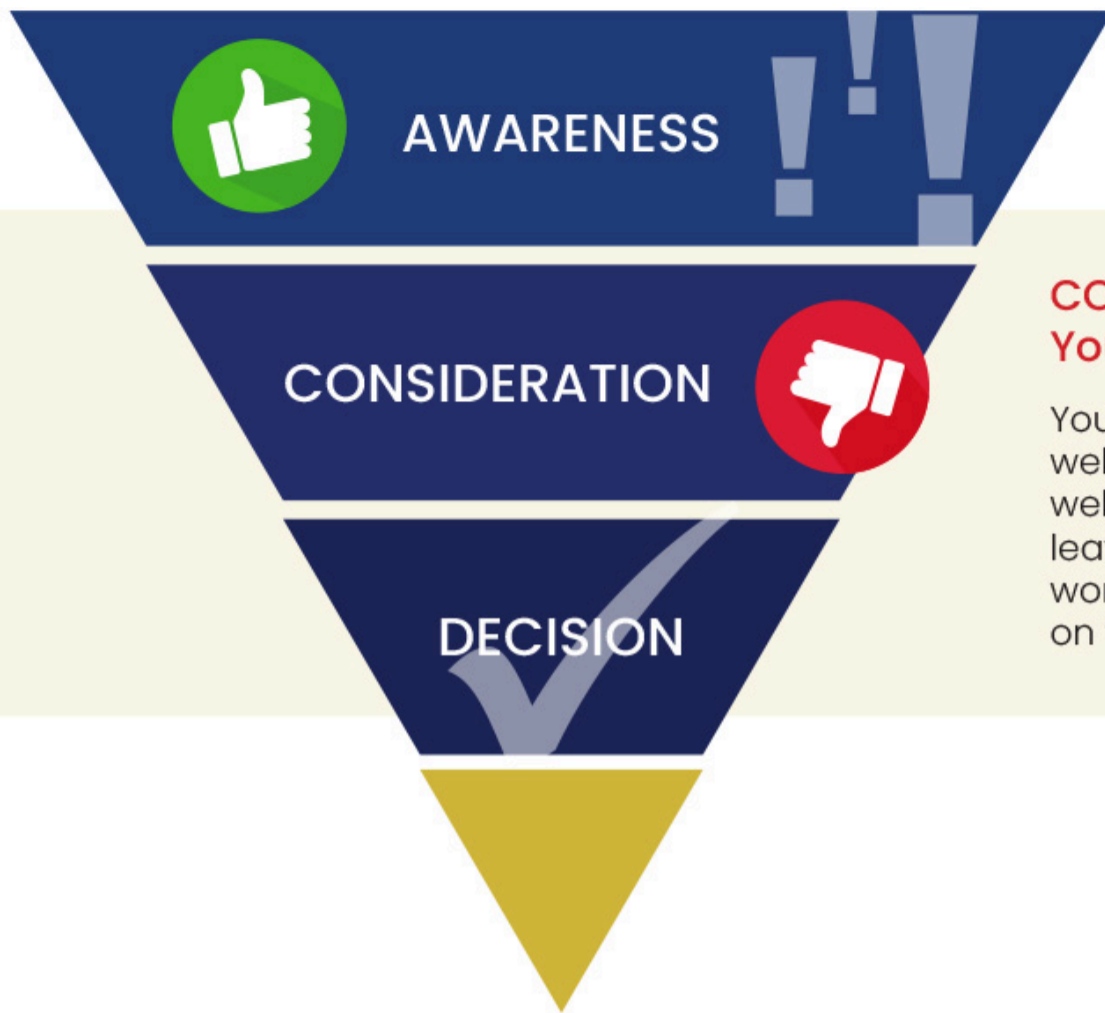

aims to improve and grow their business in the next year. You are already building awareness and curiosity through referrals, word of mouth, Google, etc.

Before potential clients make their decision, they'll check facts and compare. They will go to your website to determine if you're the right choice for them. This means that your website will be a very important tool in their decision-making. If it's not optimized, you're losing potential clients to competitors.

Main issues with the current website

- ✗ **Unclear messaging** > resulting in visitors dropping off early because they don't instantly understand what you do and why they should choose you.
- ✗ **Poor navigation** > resulting in visitors not instantly seeing what's most important to see.
- ✗ **Poor call to action** > resulting in visitors not taking action.
- ✗ **Not building trust and credibility** > resulting in visitors hesitating in taking action because they don't know if you can deliver the quality they need.
- ✗ **Slow speed** > resulting in people losing patience and leaving the website for competitors. Also affects your SEO negatively.
- ✗ **Generic/outdated look** > resulting in people not trusting that you and your services/products are modern and up to date.

CONCLUSION:
Your Marketing Funnel Is Broken

You have relevant visitors coming to your website willing to engage, but the current website is not catching their interest and they leave the website to look elsewhere. In other words, your current website is leaving money on the table.

*"For Cornel and all his team: I'm really extremely satisfied and happy with the result. It's exactly what I wanted. I know I'm a difficult customer but you were patient and very quick.
Thank you so much again!"*

Proposed Solution for starkventures.co

Webtec will build you a new website based on 7+ years of experience in designing top-performing websites. With our expertise, we will bring you the ideas, suggestions, and best practices for what would make your website an automated lead-generating machine.

Some of the benefits we strive to use and implement

✓ Conversion-optimized website

We look at the best websites in the world, and use the best practices when it comes to user experience and psychology.

✓ Better content

We will provide you with world-class images and videos from world-class photographers included in the price.

✓ More traffic

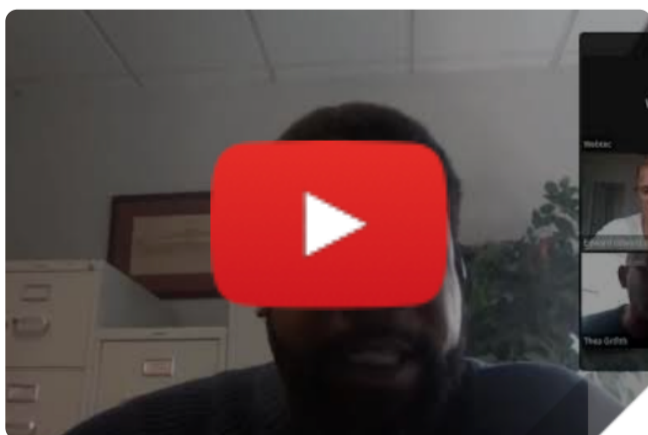

We will use proven basic SEO basics to optimize your website to rank higher on Google, to get visitors you otherwise would not get.

✓ Easy editing

We will build the website in a way that makes it easy for you to edit yourself. We will also record an educational video for you so you never forget how to do it.

✓ Safe & secure

We will build your website with the latest technology and tools to keep it safe & secure.

Did not realize how much business was missed due to old website

"It is night and day. Since we launched it (less than a month), SEO has done so much better that we have gotten at least 5 people who have put in their information to contact us to get help from us. We had ZERO leads from the old website. That alone is pretty amazing!"

Step 01

Start-up meeting,
Planning, Preparation.

Step 02

Brainstorm ideas. Design of
initial draft based on best
practices to give feedback on.

Step 03

Feedback phase.

Step 04

Optimizing the website when
it comes to speed, quality,
and performance.

Step 05

Final touches
& Deployment.

Ongoing

You choose how to manage and maintain the website. No obligatory contracts or commitments - You own the website and can do whatever you want once we are done. Our team will be on standby whenever you need us for anything regarding your site.

You can either choose to contact us whenever you want, for 89 per hour. Another option is to use our Business package where you get unlimited changes, optimizations, updates, and security checks for 99 per month.

Time expected

On average, our clients have an improved website live in 60 days. We've had many projects that are a lot faster and some that are slower. It depends on how fast you provide feedback.

The expected time for you in this project is 5-8 hours over the 60 days.

What we need from you

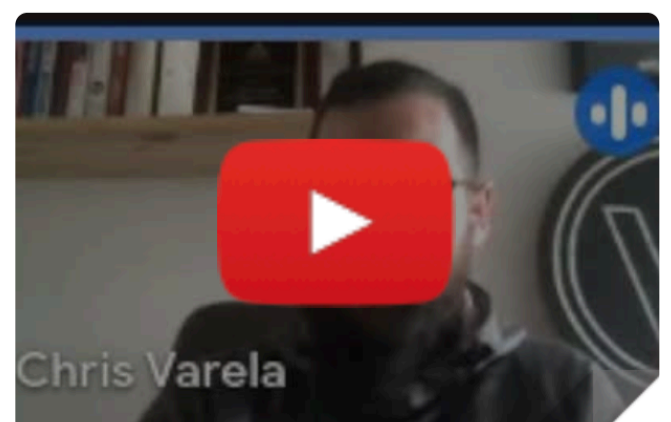

- Your feedback (usually images and texts) in the feedback phase.
- Logins to your Webhosting so we can connect the domain when it's time for deployment.

Milestone fees will be charged as we reach each step in the process outlined above. If you bought the website on a subscription, the charges will happen monthly.

Please note that additional charges may apply for third-party plugins and installations not identified during the sales meeting.

The website paid for itself in two weeks

"My previous site generated less than 10 leads per year. The new Webtec website has generated more sales calls in the first two weeks since it was launched. This is a drastic improvement for my business!"

Why webtec

We were just like you

When we ran our previous business, we couldn't find a single agency focused on helping small and mid-size businesses in a smooth and efficient way for a reasonable price.

It seemed like the alternatives out there were either cheap freelancers with not enough experience or web agencies that just wanted to work with larger, higher-paying clients. There was nothing for us.

The solution?

We decided to gather the best developers, designers, strategies, and project managers that we could find to start a web agency that simplified the web technology for busy executives in need.

We're Webtec.

What makes us unique?	Webtec	Other agencies and freelancers
No hidden costs	✓	✗
Get a personalized sketch upfront	✓	✗
Get a design with suggestions on all subpages in the project	✓	✗
Suggestions based on data from 3000+ websites	✓	✗
A set price to have zero incitement to make the project lengthy	✓	✗

Up to 3 revisions	✓	✗
Easy for you to make changes	✓	✗
Dedicated designer to support you after completion	✓	✗
The process is built and optimized for busy leaders	✓	✗
We offer Marketing, SEO & reviews after the launch	✓	✗

Ongoing maintenance - Replaces a \$2000 part-time IT person, for just 199:

We will handle your website maintenance post-launch. Our comprehensive remote IT department service includes plugins valued at \$500, licenses, theme updates, security monitoring, unlimited content changes, insurance for unforeseen issues, and hosting – all for just \$199/month.

If not, we will show you how to manage and maintain the website at no cost.

★★★★★ "The only regret I have working with Webtec is that I didn't do it sooner."
